

VEDIC KUNDALI ANALYSIS

Foreign Travel Probability Report

Years 2026 & 2027 — Self & Family

Native	Shilpa
Date of Birth	27 August 1980
Time of Birth	8:00 AM IST
Place of Birth	Anantapuram, Anantapuram District, Andhra Pradesh, India
Coordinates	14.6819° N, 77.6006° E
Ayanamsa	Lahiri (Chitrapaksha) — 23.5869°
House System	Whole Sign (Rashi) from Lagna
Report Date	07 August 2026

Key Birth Essentials

Factor	Result
Lagna (Ascendant)	Kanya (Virgo) 6.98° — Uttara Phalguni Pada 4
Janma Rashi (Moon Sign)	Kumbha (Aquarius)
Janma Nakshatra	Purva Bhadrapada Pada 2 (Lord: Jupiter)
Current Mahadasha (2026–27)	Mercury (Budha) — until ~22 May 2028
Current Antardasha	Saturn (Shani) — ~12 Sep 2025 to ~22 May 2028

EXECUTIVE VERDICT ON FOREIGN TRAVEL

Overseas travel is favourably indicated — with higher probability in 2027 than in 2026.

Astrological probability (interpretive): 2026 ≈ 58–65% | 2027 ≈ 72–80%

Travel with family/spouse: moderately supported (especially late 2026 & parts of 2027).

Travel alone (self): also well supported under Mercury Mahadasha (12th-house Mercury).

Note: Percentages express relative strength of classical yogas, dasha activation, and transits — not mathematical certainty. Free will, visas, finances, and health remain decisive practical factors.

1. Planetary Positions (Graha Sthiti)

Sidereal longitudes (Lahiri ayanamsa) at birth. Houses are Whole-Sign counted from Virgo Lagna.

Graha	Sign	Degree	Nakshatra / Pada	House
Sun	Simha	10.39°	Magha / 4	12
Moon	Kumbha	23.55°	Purva Bhadrapada / 2	6
Mars	Tula	5.03°	Chitra / 4	2
Mercury	Simha	10.99°	Magha / 4	12
Jupiter	Simha	23.44°	Purva Phalguni / 4	12
Venus	Mithuna	24.61°	Punarvasu / 2	10
Saturn	Kanya	3.33°	Uttara Phalguni / 2	1
Rahu	Karka	26.63°	Ashlesha / 3	11
Ketu	Makara	26.63°	Dhanishta / 1	5

2. Janma Nakshatra & Lagna Reading

Janma Nakshatra — Purva Bhadrapada Pada 2 (ruled by Jupiter / Guru). Purva Bhadrapada natives often carry a dual orientation: rooted duty on one side and a pull toward distant places, unconventional paths, and transformative journeys on the other. Jupiter as nakshatra lord links destiny to dharma, higher learning, pilgrimage-like travel, and expansion beyond the birth place.

Lagna — Kanya (Virgo) (6.98°) in Uttara Phalguni Pada 4. Virgo rising makes Mercury the Lagna lord. Mercury placed in the 12th house is a classic signature for interest in foreign lands, residences abroad, overseas work, or frequent long-distance travel during Mercury periods. Saturn occupying the Lagna adds discipline, patience, and sometimes delay — travel happens after planning and paperwork, not impulsively.

Chandra Rashi — Kumbha (Aquarius). Moon in Aquarius (air/fixed) supports humanitarian, networked, and cross-border themes. Moon in the 6th house can mean travel arising from service, employment obligations, health of relatives, or resolving practical duties — not only leisure.

3. Foreign Travel Yogas in the Birth Chart

In classical Jyotisha, the **12th house** (Vyaya / foreign residence), the **9th house** (Bhagya / long journeys), **Rahu** (foreign cultures), and the dasha of planets connected to these houses are primary indicators of travel outside one's homeland.

- **Sun + Mercury + Jupiter in the 12th (Simha)** — This is the strongest foreign-travel configuration in the chart. Three natural benefics/functional significators clustered in the house of foreign lands create a lasting potential for overseas movement, not a one-time fluke. Jupiter in the 12th also links spouse/partner themes (Jupiter rules the 7th from Virgo) to foreign settings.
- **12th lord Sun placed in the 12th** — Reinforces foreign residence, long stay abroad, or repeated overseas visits. Sun also rules authority/government; travel may involve official, corporate, or status-related purpose.
- **Lagna lord Mercury in the 12th** — The native's life direction itself leans toward foreign connection. Mercury Mahadasha (currently running) therefore activates this natal promise.
- **9th lord Venus in the 10th (Mithuna)** — Venus rules both the 2nd (family/kutumba) and the 9th (long journeys/fortune). In the 10th, fortune and travel often link to career, profession, or public standing. Venus periods favour purposeful long-distance travel and can include family.
- **Rahu in the 11th (Karka)** — Gains, networks, and fulfilment through foreign or unconventional channels. Supports overseas opportunities and invitations.

- **Saturn in Lagna aspecting the 7th** — Saturn's 7th-house aspect (drishti) ties partnership/spouse matters to the native's timing. When travel yogas fire, spouse accompaniment becomes a live possibility; Saturn may also impose delays or formalities.

4. Vimshottari Dasha Timing (2026–2027)

Birth balance of Jupiter Mahadasha was approximately **11.74 years**. Thereafter Saturn Mahadasha ran ~1992–2011, and **Mercury Mahadasha** from ~23 May 2011 to ~22 May 2028. The entire window of 2026–2027 falls inside Mercury Mahadasha and **Mercury–Saturn Antardasha** (~12 September 2025 to ~22 May 2028).

Why this matters for travel: Mercury, the Mahadasha lord, sits in the natal 12th house. Whenever Mercury's period runs, the 12th-house themes — foreign lands, expenses for travel, separation from birth place, overseas stays — come to the foreground. Saturn as Antardasha lord sits in the Lagna: travel is personal, deliberate, and often accompanied by responsibility (family duties, career duty, or elder/spouse considerations).

Pratyantardasha windows inside Mercury–Saturn (most relevant):

Pratyantar Lord	Approx. Period	Travel Relevance
Saturn	Sep 2025 – Feb 2026	Planning, visas, delays; foundation for later travel
Mercury	Feb 2026 – Jul 2026	Self-focused movement; paperwork/communication abroad
Ketu	Jul 2026 – Aug 2026	Sudden/short foreign contacts; less family-centric
Venus	Aug 2026 – Feb 2027	Strong window — 9th lord; family/comfort travel favoured
Sun	Feb 2027 – Apr 2027	Authority/official travel; 12th-lord activation
Moon	Apr 2027 – Jun 2027	Emotional/family motives; domestic-to-foreign shift
Mars	Jun 2027 – Aug 2027	Active, hurried trips; energy for departure
Rahu	Aug 2027 – Jan 2028	Peak foreign signification — strong overseas pull

5. Transit Analysis (Gochar) for 2026–2027

Transits are read from Virgo Lagna (whole-sign). Key slow movers:

- **Saturn transit in Meena (7th house)** through most of 2026 into mid-2027 — Activates spouse/partner axis. Supports joint decisions, including travel together; also tests relationship logistics and responsibilities.
- **Jupiter transit:** 10th house (Mithuna) early 2026 → 11th (Karka) mid–late 2026 → touches/occupies **12th (Simha)** in parts of 2027. Jupiter's passage over the natal 12th-house cluster is a classic trigger for foreign travel or extended stays abroad.
- **Ketu transit in Simha (12th)** during much of 2026 — Amplifies 12th-house karma; can bring detachment from homeland routines and open sudden foreign doors.
- **Rahu transit:** 6th house early–mid 2026, then toward 5th in 2027 — Foreign themes via work/service first; later via children/creative projects or speculative ventures.

6. Year-by-Year Travel Probability

Year 2026

Overall probability of travel outside India: **approximately 58–65%** (moderate to moderately high).

The first half of 2026 (Saturn & Mercury pratyantars) is better for **preparation** — passports, visas, sponsorship letters, leave planning, and saving — than for the actual departure, though short or work-driven trips remain possible. From **late August 2026 through year-end** (Venus pratyantar begins ~31 Aug 2026), the chart turns clearly more supportive of a real overseas journey. Venus as 9th and 2nd lord favours purposeful long travel and can include family members.

- Self-travel 2026: plausible in Feb–Jul (Mercury PD) for work/official reasons.
- Family/spouse travel 2026: better from Sep–Dec 2026 under Venus PD + Saturn's 7th transit.
- Most promising 2026 window: **September – December 2026**.

Year 2027

Overall probability of travel outside India: **approximately 72–80%** (high relative to 2026).

2027 stacks multiple activations: continued Mercury–Saturn dasha, Venus PD into February, Sun PD (12th lord) in Feb–Apr, and especially **Jupiter's involvement with the 12th house** plus **Rahu pratyantar from ~August 2027**. Rahu is the karaka of foreign lands; its sub-period inside a 12th-house Mercury Mahadasha is one of the clearest classical timings for overseas travel.

- Strong windows 2027: **February–April** (Sun PD / Jupiter near 12th) and **August–December** (Rahu PD).
- Family travel 2027: supported in early year (Venus residue + Moon PD Apr–Jun) and when spouse logistics align under Saturn's lingering 7th influence into mid-2027.
- Alone / self travel 2027: particularly indicated under Sun and Rahu pratyantars.

7. Self vs Family Travel — Equating the Grahas

Question	Indication	Confidence
Travel outside India in 2026?	Yes — more likely late year (Sep–Dec)	Moderate–High
Travel outside India in 2027?	Yes — stronger than 2026; multiple windows	High
With spouse / family?	Supported (7th-lord Jupiter in 12th; Venus 2nd/9th; Saturn transit 7th)	Moderate–High
Alone / self only?	Also supported (Lagna-lord Mercury in 12th; Rahu PD)	Moderate–High
Which is more likely?	Both possible; spouse-accompanied slightly favoured in late 2026; either in 2027	Balanced

Family logic in brief: Jupiter rules the 7th (spouse) and sits in the 12th — the spouse is astrologically linked to foreign settings. Venus rules the 2nd (immediate family) and 9th (long journeys), so Venus periods favour family-inclusive travel. Ketu in the 5th can mean children's involvement is selective or spiritually/educationally motivated rather than purely leisure. Overall, **travel with spouse is clearer than a full multi-generation family entourage**, though family inclusion is certainly possible in Venus/Moon windows.

8. Favourable Windows Summary

Rank	Window	Nature
1	Aug 2027 – Dec 2027	Peak foreign travel (Mercury–Saturn–Rahu)
2	Sep 2026 – Feb 2027	Strong purposeful / family-friendly travel (Venus PD)
3	Feb 2027 – Apr 2027	Official / status / 12th-lord Sun activation
4	Apr 2027 – Jun 2027	Family/emotional motive travel (Moon PD)
5	Feb 2026 – Jul 2026	Self/work travel; prepare documents

9. Supportive Upayas (Optional Traditional Remedies)

These are traditional supportive practices only; they do not replace practical planning.

- Strengthen **Mercury** (Lagna & Mahadasha lord): Wednesday green/light attire, Budha mantra or Vishnu-related worship; care for speech and documents.
- Respect **Saturn** (Antardasha & Lagna occupant): discipline in timelines, honesty in applications, Saturday charity or service to elders.
- Honour **Jupiter** (Janma nakshatra lord & 12th occupant): Thursday prayers, guru/elder blessings before major travel.
- For foreign doors, classical texts also mention sincerity in visa/legal processes (Saturn) and clear communication (Mercury) as living remedies.

10. Method Notes & Limitations

Calculations use Swiss Ephemeris with Lahiri (Chitrapaksha) ayanamsa, Placidus-derived sidereal Ascendant converted for Lagna sign, and Whole-Sign houses for house lordship — the standard approach in much of contemporary Indian astrology. Vimshottari dasha uses 365.25-day year approximation; commercial Kundali software may show pratyantar dates differing by a few days. Birth time accuracy of 8:00 AM is assumed; even a 10–15 minute shift can move Lagna degree and nakshatra pada, though the Virgo Lagna and 12th-house stellium would likely remain intact near this hour.

This report is an interpretive Vedic astrology analysis prepared for personal insight. It is not a guarantee of events, nor legal, immigration, medical, or financial advice. Astrology describes tendencies and timings; outcomes depend on effort, circumstances, and divine will (Daiva) alongside human action (Purushartha).

Prepared for: Shilpa

Subject: Probability of travel outside India — alone or with family — in 2026 & 2027

System: Parashari Jyotisha · Vimshottari Dasha · Lahiri Ayanamsa

Om Shanti — May journeys, when they come, be safe and fruitful.
