2. Your Three Focus Areas — Quick View

Health

- 6th house (disease / enemies / daily routine) has **Mars + Venus** in Virgo.
- 6th lord Mercury sits in the 8th — health needs care for hidden / long-term issues; regular check-ups help.
- Watch: digestion, blood pressure / heat, nerves, and stress-related fatigue. Mars gives fighting power — you can recover when disciplined.

Finance & Growth

- Saturn in 2nd house = money comes through hard work, patience, and steady saving — not sudden lottery.
- Jupiter (own sign) + Rahu in 9th = growth through wisdom, teaching, consulting, ethics, and big-picture opportunities.
- Mercury in 8th = income from technical skill, research, shared resources, insurance / investments / specialised services.

Work Especially in Foreign Countries

- Strongest signal: **Rahu + Jupiter in 9th (Dhanu)** — classic support for foreign land, overseas travel, and work linked to other countries.
- 9th house = long journeys, fortune abroad, mentors, visas / higher purpose. Rahu amplifies desire to go far from birth place.
- Sun in 7th (partnerships) + 12th themes (foreign settlement) support roles involving overseas clients, remote work for foreign firms, or living abroad for periods.

3. Graha by Graha — Simple Reading

Read each planet for how it touches Health (H), Finance (F), and Foreign work (X).

Lagna — Mesha (Aries)

You are naturally active, direct, and independent. Body constitution is Pitta–Vata leaning: energy is high when you move and lead; low when idle or angry.

H: Protect head, eyes, blood heat, and accidents from haste.

F: Earnings improve when you take initiative and own responsibility.

X: Aries rising people often succeed when they pioneer in a new place — including abroad.

Surya (Sun) — 7th house, Tula

Sun in 7th means identity grows through partnerships, clients, and public dealings. Libra softens ego — diplomacy helps career.

H: Heart, bones, eyes — avoid ego stress and overwork in heat.

F: Money via partnerships, business with others, or client-facing roles.

X: Foreign partners, overseas contracts, and working with people from other countries are favoured.

Chandra (Moon) — 3rd house, Mithuna + Ardra

Moon in Gemini 3rd: quick mind, writing/speaking skill, courage for short trips and skills. Ardra nakshatra (Rahu-ruled) adds intensity, research mind, and life changes through effort.

H: Mind, sleep, lungs / allergies — calm the nervous system.

F: Side income through communication, trading ideas, networking.

X: Short foreign visits, remote coordination across time zones, and skill-based travel suit you.

Mangal (Mars) — Lagna lord in 6th, Kanya

Lagna lord in 6th is a double edge: strong will to defeat illness and competition, but health and workplace conflict need discipline. Virgo makes Mars precise and service-oriented.

H: Inflammation, acidity, muscles, blood — prefer cool diet, regular exercise, less anger.

F: Victory over debts/competitors; good for jobs in engineering, surgery-like precision, defence of others' interests, or technical service.

X: Foreign employment in competitive fields is possible if health routine is stable.

Budha (Mercury) — 8th house, Vrishchika

Mercury in 8th: deep thinker, analyst, researcher. Speech can be sharp; mind digs into secrets, finance systems, and technical puzzles.

H: Nervous system, skin, chronic small issues — do not ignore early symptoms.

F: Gains via research, IT/analysis, accounting, insurance, inheritance, or specialised consulting. Mercury Mahadasha (2008–2025) was a major skill-and-income chapter.

X: Foreign income through knowledge work, documentation, and remote intellectual services fits well.

Guru (Jupiter) — 9th house, own sign Dhanu — KEY PLANET

Jupiter in own sign in 9th is a blessing for dharma, teachers, fortune, and long journeys. With Rahu, fortune often comes in unconventional or foreign ways.

H: Liver, weight, sugar — keep moderation; Jupiter expands whatever you feed it.

F: Growth through teaching, advising, law/ethics-related work, finance wisdom, and goodwill. Wealth builds when you stay honest and long-term focused.

X: Strongest foreign indicator. Work, residence, or frequent travel to foreign countries is supported — especially education, consulting, spiritual/teaching, or expansion roles.

Shukra (Venus) — 6th house, Kanya

Venus in Virgo 6th is debilitated classically — comforts come after service and refinement. Taste for quality remains; excess luxury can create debt or health soft spots.

H: Reproductive/urinary system, sugar, skin — balance sweets and rest.

F: Money through service, design/quality work, customer care, or careful budgeting. Avoid speculative luxury spending.

X: Foreign work in hospitality, arts, finance support, or client luxury services is possible when Venus periods activate.

Shani (Saturn) — 2nd house, Vrishabha

Saturn in 2nd: slow, serious approach to family wealth and speech. Delays teach saving habits. Taurus grounds Saturn — real assets matter more than show.

H: Teeth, bones, joints, coldness — warm oil massage, calcium, and routine help.

F: Steady accumulation, property over time, respect through reliability. Saturn Mahadasha (1989–2008) laid career foundation through effort.

X: Foreign work that is structured, long-term contract, or seniority-based suits Saturn. Patience with visas and paperwork pays off.

Rahu — 9th house with Jupiter, Dhanu — FOREIGN KEY

Rahu with Jupiter in 9th intensifies hunger for foreign lands, higher status, and unconventional fortune. It can bring sudden openings abroad, but also confusion if ethics slip.

H: Mysterious or stress-related issues; detox and mental clarity matter.

F: Unusual income streams, foreign currency, tech/global markets — keep ethics clear.

X: Primary planet for living/working abroad. Favourable for foreign settlement, MNCs, remote global roles, and long-distance fortune. Stay truthful — Rahu rewards ambition, not shortcuts that harm reputation.

Ketu — 3rd house with Moon, Mithuna

Ketu in 3rd: detachment from restless mind chatter; skill and courage come from past-life talent. Can feel lonely in siblings/peers, but strong for focused craft.

H: Psychosomatic stress, sleep — meditation and grounding help.

F: Money from specialised skill, research, healing, or spiritual/technical niche. Ketu Mahadasha (from Aug 2025) may reduce flashy income but increase meaningful work — including foreign spiritual/technical niches.

X: Short foreign stays, pilgrimages, or work that feels like ‘service far from home’.
